Detailed Action

Election/Restrictions

1. Claims 1-9 and 11 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 12-26, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 1-9, 11-26 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 7-8-2002 is hereby withdrawn.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: With regards to claim 1, the closest prior art US 5,591,289 to Souders et al teach the claimed invention except for the inclusion of a nonwoven cushioning layer disposed between a cover layer and a batting material. US 6,008,149 to Copperwheat teaches a "formable fabric layer" sandwich with a variable compression fabric in between these formable layers. Copperwheat does not disclose two distinct layers of nonwoven material, including a batting layer and a high loft non-rigid cushion layer of nonwoven material. There is no teaching in Souders or Copperwheat alone or in combination in favor of adding an additional and separate cushion layer of nonwoven to the structure of either

of these references, to construct a material having the same characteristics as the invention claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
